SHAIKH UZEFA

Web Developer | PHP, MySQL & MERN Stack

uzefashaikh082@gmail.com [+91 93284 64932](tel:+919328464932) [Portfolio](https://uzefa-dev.vercel.app) [GitHub](https://github.com/uzefa-dev) [LinkedIn](https://www.linkedin.com/in/uzefa-dev) **Surat, Gujarat**

SUMMARY

Final-year BCA student at C.B. Patel Computer College with hands-on project experience in **PHP**, **MySQL** and the **MERN stack** (MongoDB, Express, React, Node.js). Built a Student Management System with **CRUD operations** and session-based admin login in PHP, and an Event Management System with a **React** front end, **REST API** and **MongoDB** database. Also completed foundational courses in Python, Power BI, Data Analytics and Generative AI. Developed and deployed a personal **portfolio website** on Vercel (uzefa-dev.vercel.app). Seeking an entry-level PHP / Web Developer role or internship to grow through real-world projects.

EXPERIENCE - FRESHER

EDUCATION

Bachelor of Computer Applications (BCA)
C.B. Patel Computer College
Final Year (Pursuing) | Surat, Gujarat

HSC - 75.76%
Anglo Urdu High School
2024 | Surat, Gujarat

SSC - 77%
Anglo Urdu High School
2022 | Surat, Gujarat

PROJECTS

Student Management System [GitHub](https://github.com/uzefa-dev/Student-Management-System)

Tech Stack: PHP, MySQL, XAMPP, HTML, CSS

- Built a **CRUD web application** in **PHP** and **MySQL (MySQLi)** on XAMPP for administrators to manage student records.
- Implemented **session-based admin login** with protected dashboard pages and logout.
- Developed a dashboard showing total student count and a student table with **live search across 6 fields**: enrollment number, name, email, phone, city and course.
- Added **add, edit and delete** operations with a delete-confirmation step.
- Designed the **MySQL schema** (students and users tables) and a custom CSS admin interface.

Event Management System [GitHub](https://github.com/uzefa-dev/Event-Management-System)

Tech Stack: React, Node.js, Express.js, MongoDB, Mongoose, Axios, CSS

- Built a full-stack **MERN application** for administrators to create, view, update and delete events, with a **React** front end connected to a **Node.js / Express** backend using Axios.
- Developed a **REST API with 5 endpoints** and a **Mongoose schema** in **MongoDB** storing 7 event fields: title, description, category, date, time, venue and organizer.
- Implemented **admin login with protected routes** using React Router, redirecting unauthenticated users to the login page.
- Added **live search across all 7 fields**, a delete-confirmation prompt and a responsive card-based event grid with category tags and an empty-state view.

SKILLS

Core

PHP	**MySQL**	**SQL**
HTML5	**CSS**	**JavaScript**
React	**Node.js**	**Express.js**
MongoDB	**REST APIs**	**Python**
Power BI	**Git/GitHub**	**XAMPP**

Basic Knowledge

C	**C++**	**Java**
ASP.NET	**OOPS**	**File I/O**
Vertex AI		

COURSES

Power BI & Data Analytics (Foundational)
SkillCourse
Data analysis basics, data visualization, report creation and presenting insights clearly.
Certificate

Data Analytics (Foundational)
WSCubeTech
Collecting, cleaning, analyzing and visualizing data to draw useful insights.
Certificate

Basics of Python (Beginner)
UniAthena, with Cambridge International Qualifications, UK
Python fundamentals: variables, data types, operators, control flow, functions, modules and file handling.
Certificate

Introduction to Generative AI Studio
Simplilearn SkillUp (content by Google Cloud)
Intro to Generative AI Studio on Google Cloud's Vertex AI: its features, and how to prototype and customize generative AI models.
Certificate

LANGUAGES

Gujarati **Hindi** **English**
